Dear Sir,

I am informed that the government is now coining silver dollars. If this be true will you kindly let me know how I can get ten dollars of 1896 date? That is please direct me how to send for them. Will my draft be accepted for them? In this wild crazy time I often hear it repeated that none are being coined. I understood that the silver certificates are being now to some extent canceled and the silver dollar coined in place of them.

Very Truly
